SUMMARY

Well-qualified Full Stack Developer familiar with wide range of programming utilities and languages. Knowledgeable of backend and frontend development requirements. Handles any part of process with ease. Collaborative team player with excellent technical abilities offering 6 years of related experience.

EXPERIENCE

Kajabi, Full Stack Software Developer

Jan 2023 - Present

Optimized software performance by implementing efficient algorithms and code optimizations, enhancing mobile performance for Kajabi Communities app and improving user experience.

Documented technical workflows and knowledge to educate newly hired employees.

Streamlined app updates with continuous integration techniques, leading to faster release cycles.

Set up native staging app to optimize QE testing process and implemented masquerading option for easier issue testing by QE and success teams.

Developed granular notification controls, reducing notification cancellations by 25%.

Koç Digital, Mobile Software Developer

Mar 2022 - Jan 2023

Developed user-friendly mobile applications by incorporating intuitive design and seamless navigation features, resulting in 20% increase in user satisfaction.

Developed reusable components that significantly reduced development effort on multiple projects.

Implemented CodePush to streamline app updates, leading to faster release cycles and easier version management.

Created mobile app for IoT infrastructure, featuring various charts and graphics to display telemetry data from each IoT device, improving data visualization efficiency.

Eteration, Full Stack Software Developer

Jan 2021 - Mar 2022

Developed TıklaGelsin app, enhancing user experience with seamless interface. Technologies used include React (MUI, Gatsby) for web, React Native for mobile, and Nest.js (GraphQL, MongoDB) for backend.

Created robust backend services using RESTful API designs that facilitated seamless data exchange between front-end clients and back-end systems.

Mentored junior developers, providing guidance on best practices and fostering positive team environment, contributing to 15% increase in team productivity.

Deployed applications using containerization technologies such as Docker, ensuring consistent runtime environments across development, testing, and production stages, resulting in 40% reduction in deployment issues.

FitThink, Full Stack Software Developer

Jan 2020 - Jan 2021

Developed ReportBack app, focusing on robust functionality and user engagement. Technologies used include React for web, React Native for mobile, and backend stack of Nest.js, Java, Go, and Firebase (Firestore, authentication). Enhanced backend performance by 25%, switching to microservice architecture using Nest.js.

Implemented data security measures, safeguarding sensitive user information from potential breaches.

Collaborated with UX/UI designers to create visually appealing interfaces, enhancing overall user engagement levels.

Parta Networks, Full Stack Software Developer

Apr 2019 - Jan 2020

Developed software for desktop and mobile operating systems

Enhanced user experience through designing and implementing user-friendly interfaces

Developed robust firmware solutions, contributing to improved product reliability and customer satisfaction

EDUCATION

Izmir Institute of Technology

B.Eng. • Computer Engineering
